Sleep - Rest Needs

Goals of Care

Goals:

I would like to sleep well throughout the night with no episodes of insomnia.

Relevant Assessment Details

Difficulties:

Excessive interactions,
noise and light

Medical history:

GORD, Polymyalgia Rheumatica, Alzheimer's
disease,Airway disease, Itchy skin nodules,Osteoarthritis
of the knees, Low vitamin D

Interventions

Usual settling time: 2000.

Usual waking time: 0530-0600.

Amt Pillows: 1

Amt. blankets: 2

Sleep management plan:

Can be effected by periods of napping throughout the
day compromising night time sleep pattern

**Other preferences and
routines:**

Emotional / Relationship / Intimacy / Stress Management / Spiritual - Cultural / Social - Community Needs

Goals of Care

Goals:

I would like to feel supported and comforted when I become upset.

Relevant Assessment Details

Frequency of family visits:

Carol's sisters visit often, Carol video calls with her daughter every Sunday

Issues re family / friends relationships:

Feelings about relationships

Carol enjoys contact and visits with loved ones.

Interventions

Religion/ Belief: Catholic.

Minister / church to contact: nil

Service participation: nil

Specific Spiritual needs / preferences:

Spiritual needs I have no spiritual needs

Specific Cultural needs / preferences:

Cultural needs

I have no specific cultural needs but enjoy celebrating Australian cultural days

Customs Australian Customs.

Support needed by resident:

Emotional support strategies

After visits from sister and her dog, Carol needs 1:1 time and attention to distract her.

Reassurance that she will continue to have visits from her sister and she will bring in her dog, Honey.

Support relationship with:

People resident wishes to contact / confide in: Sister's .

Religious/ holiday celebrations / traditions:

Celebrations Christmas and Easter

Holidays Christmas and Easter.

Traditions birthdays, Christmas and Easter, ANZAC Day

Relaxation strategies:

Singing and spending time with staff. The garden and the therapy dog, Tilly.

Likes to pick flowers or just walking with staff holding her hand for reassurance

Ways to solve problems: Joking around, dancing and singing with her

Assistance required:

Staff assistance be respectful, kind ,understanding

Other strategies

staff give 1:1 time and attention, reassurance, distraction with activity or conversation of interest to Carol , likes watching or participating in cooking, craft, likes to be made feel useful and a help to others. Carol responds to staff taking her to a quite area to give support , likes to be made feel listened to and have empathy back to her

Behaviour Management Needs

Goals of Care

Goals:

I would like staff to remind me that sometimes I can use a tone of voice that is distressing to others.

Relevant Assessment Details

Behaviour demonstrated when upset:

How the person alerts staff that a problem exists

Staff will notice a change in her behaviour or participation

Carol has stuttering or loss of verbal communication when upset

Carol may follow a staff member that she is comfortable with for reassurance and support or regress to a quiet spot, often outside in the garden

Interventions

Avoid these causes of:

Stress: Becomes stress with any changes to routine .

Anger: Carol becomes upset when she is incontinent.

Anxiety: easily becomes anxious and worries about any changes in her health or worries about her family

Depression: can become despondent and at times teary , can have self focus and not be conscious of others, looks for attention back on to herself

Powerlessness: When feeling lonely and feels no one likes her . Becomes happy again when given attention.

Watch for the following signs of these:
withdrawal and isolation
Carol will regress to a quiet space or stand quietly
Carol becomes agitated and doesn't not like staff attending her personal hygiene needs.

How to assist resident when upset:

How to prevent loneliness:

1:1 support and time in the garden where Carol is happy
Engagement in activities Carol enjoys within Willow

Diversional Therapy / OT / Activities Planned

Goals of Activities/Therapies	Relevant Assessment Details	Interventions
Aims of Activities	Limitations / barriers observed	Physical
Aims <p>The aim of Carol's individualised activities program is to promote enjoyment, encourage Carol to be as independent as she chooses by staff facilitating assistance to do the activities she enjoys. The plan aims to promote a sense of happiness, well being and self worth in Carol through enjoyable activity. Carol's activities are provided taking into account her preferences based on her interests both past and present and individualised taking into consideration her level of cognitive impairment and progression in her disease.</p>	<p>poor mobility</p>	Reason / Need to participate in activities <p>Carol will be given the opportunity to maintain/improve physical health</p>
Life Story Details	Strategies	Activities
<p>Born in Sydney. Grew up in Gaylong N.S.W (near Yass). Moved with her Mum to Canberra to attend High School. Experienced trauma when father died. Married first husband Ronnie to appease her father. Carol had an ectopic pregnancy and was unable to conceive naturally. They adopted 2 children, Jerome and Serena. They later divorced. She married John her second husband and lived in UK and travelled around Europe. Later divorced John</p>	<p>Staff use a combination of both reality orientation and validation therapies to assist with implementation of Carol's individualised activities plan due to her cognitive limitations. Staff support Carol physically, emotionally and cognitively to ensure the best outcome possible for meeting her activity goals</p>	<p>Carol will be invited and supported to participate in Group walking and seated exercise activities, walking in the garden, carpet bowls, chair hockey and more.</p>
		Cognitive
		Reason / Need for participating activities <p>Carol will be given the opportunity to maintain / improve current cognitive capabilities.</p>
		Activities
		<p>Carol will be invited and supported to attend cognitive activities such as drum circle and Art and craft activities. She does not like quizzes and memory games, however seems to enjoy watching others engage with this activity</p>
		Emotional / Social
		Reason / Need for participating activities <p>Carol will be given the opportunity to attend activities in small group settings and socialise with her friendship group as she chooses.</p>
		Activities

She sold the house and moved to Gosford to be closer to children and Grandchildren.
Carol moved in with Margaret her sister at Missabotti and then later to Valla where her condition deteriorated.
She now resides at MVH.
She has lived a solitary life and hasn't made many friends throughout her life.
She loves animals and gardening

Carol will be invited and supported to socialise in small groups with like minded residents as well as attend social group activities such as Happy Hour. Carol is very social and loves to chat to other residents and staff, all of which is encouraged daily. Carol uses video calling via Messenger to keep in contact with family members and staff send pictures via messenger to the family of Carol enjoying her day to day activities

Creative

Reason / Need for participating activities

Carol will be given the opportunity to be creative in our creative Arts programs.

Activities

Carol will be invited and supported to attend Live music sessions, drum circle and creative artistic workshops. Carol is encourage to attend cooking group and other creative activities too.

Cultural

Reason / Need for participating activities

Carol will be given the opportunity to have her Cultural needs met.

Activities

Carol will be invited and supported to attend Australia day celebrations and Melbourne cup fun days with other residents.

Sensory

Reason / Need for participating activities

Carol will be given the opportunity to have her sensory needs met.

Activities

Carol will be invited and supported to attend Aromatherapy sessions and Massage with Physiotherapists, sensory activities such as cooking and gardening and more

Task Oriented or ADL's

Reason / Need for participating activities

Carol will be given the opportunity to attend activities related to her special interests.

Activities

Carol will be invited and supported to select activities from the activities calendar which she may like to attend. Carol will be supported with cleaning her room. She waters her own little pot plant garden on her bench. Carol takes part in the household model of care supported by staff to ensure positive outcomes.

Hobbies / Special Activities

Reason / Need for participating activities

Carol will be given the opportunity to attend activities related to her special interests.

Activities

Carol will be invited and supported to attend activities such as Art days in our craft room and Supervised cooking in our kitchens as well as gardening. Carol is supported by staff to choose and pick flowers which she places in vases throughout Willow wing to brighten up the place.

Spiritual

Reason / Need for participating activities

Carol's family has stated she has no Spiritual needs.

Activities

although we have established that Carol has no Spiritual needs, she still recognizes Christmas and Easter, and will be invited to spiritual activities and given the choice to attend.
